Dr. Makarand Paranjape

Professor Lou Marinoff

Author Dr. Makarand Paranjape in conversation with Professor Lou Marinoff about his book JNU Nationalism and India's Uncivil War

"This important book comes at an inflection point in Indian democracy when identity politics are no longer just about social justice, but have come into conflict with the Republic itself, even with the Constitution, and with the idea of nationhood. I am glad Professor Paranjape has taken up the challenge to share an insider's perspective of the tumult within the campus of this once hallowed institution. He brings immense erudition to this gripping account of nationalism and Indianness in these most turbulent of years."
